

SEL INOX NEW

A small, comfortable and easy to handle counterbalanced stacker.

PERFORMANCE, SAFETY AND STABILITY, HYGIENE AND EASY CLEANING

Its strong points:

- The proportional controls for raising and lowering the forks **located on the push button control box**;
- **The tiller arm and drive wheel positioned in the centre** for better ergonomics and visibility;
- The possibility of **transversal pick-up** of pallets (bottom boards);
- The hourmeter and check control **protected and waterproof**.
- The push-button control box in **corrosive resistant plastic** with mould fitted control buttons **totally in stainless steel** and the new IP67 protected microswitch
- Frame with rounded shapes to **reduce the deposit of residues** which enables good daily washing with fresh water,
- Stainless steel bearings, **pins and bushes on wheels**, rollers and masts.
- **Drive wheel protection** cover area, wider for better access to the front wheels.
- **Tiller arm support base** with double gasket for a better sealing inside the bonnet area.
- **Predisposition** for making more accessible the fitting of hydraulic hoses.

On request: electric steering, tilting on the mast, cold store execution and special dimensions.
