

ELE 14-16 NEW

The NEW stacker made in IRON suitable for intensive use.

PERFORMANCE, SAFETY AND STABILITY

Main characteristics:

- Frame – "B" dimension 880 mm and nominal capacity 1400/1600 Kg.
- Duplex and Triplex masts - With lift heights up to 5600 mm.
- New Electric Steering – For simplicity of movement and an optimal use of the truck also in reduced spaces.
- New Tech – LATEST generation of AC power and Can Bus technology.
- New Traction Motor - 2000 W for optimal performance levels, better reliability and greater protection.
- New Expanded Frame - By optimizing access to the components.
- Swivel Castor wheels – Swivel castors better protected because fitted on the inside of the truck's frame and also more accessible thanks to the new container space.
- Increased Battery Power – Possibility of fitting a driving type battery up to 500 Ah 24V and with rapid roll-out from the side.
- Operator Transport Platform - Optional.
- Free Lift - Optional Free Lift without mast coming out.
